Learn it. Or have it built.

GTM automation,
taught or built.

ASTRA AGENCY

A sales engine that still works next year. Raka teaches your team to build it, or Astra builds it for you.

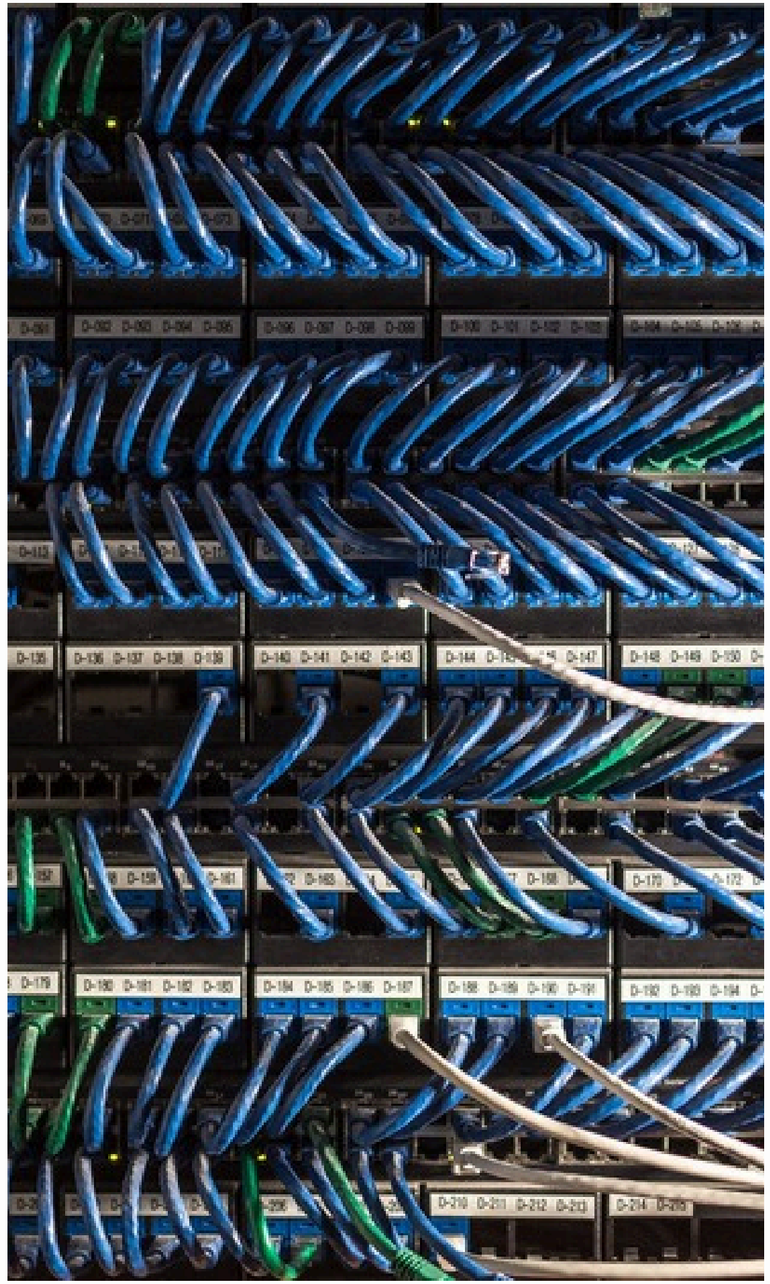

Raka Mulya x Astra Agency

What Is **GTM AUTOMATION**?

- The **systems** that find, reach and win customers.
- Data, **AI** and your CRM, connected.
- The right **account**, reached at the right moment.
- Work done by hand, run as a **system**.
- Built once, improved every week.

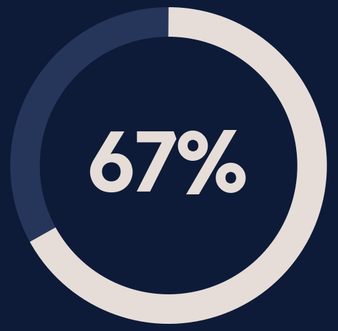

In one line

Your sales process, turned into an *engine* that *keeps* running after a *slow week*.

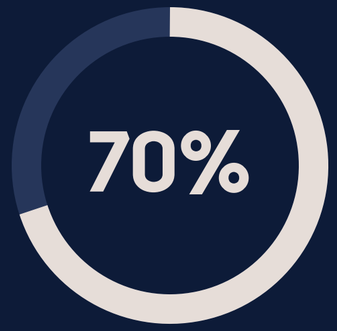

Why Now

The market moved

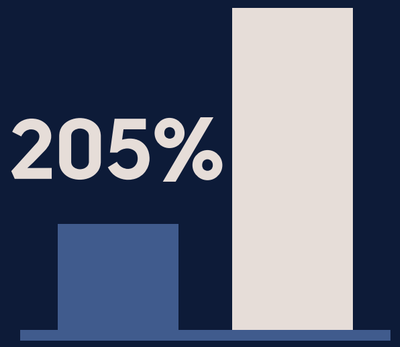

Buyers go alone

B2B buyers who'd rather buy without a sales rep.
45% used AI in a recent purchase.
Gartner, 2026

Reps are stretched

Of a rep's week goes on work that isn't selling.
84% missed quota last year.
Salesforce State of Sales, 2024

Teams are hiring

Growth in GTM engineering and RevOps job postings.
January to September 2025 against 2024.
Bloomberry, 2025

What Breaks **NEXT YEAR**?

- You're winning deals **this quarter**.
- Next quarter needs more **pipeline**.
- The quarter after needs **more again**.
- Next year, the manual way hits its **limit**.
- You need a system that scales.

Without one

More tools, more *busywork*, and a pipeline that *still* depends on who had a *good week*.

ASTRA AGENCY

What GTM Automation Runs

1. Who to target. Your ICP, tiers and who to rule out. →
2. Who to reach. Lists built, enriched and scored. →
3. Why now. Signals that say the timing is right. ↓
4. What to say. Researched, checked, one problem. ←
5. Send and reply. Safe sending, every reply routed. ←
6. What it's worth. A clean CRM and a scorecard you trust.

Who's **Behind** It

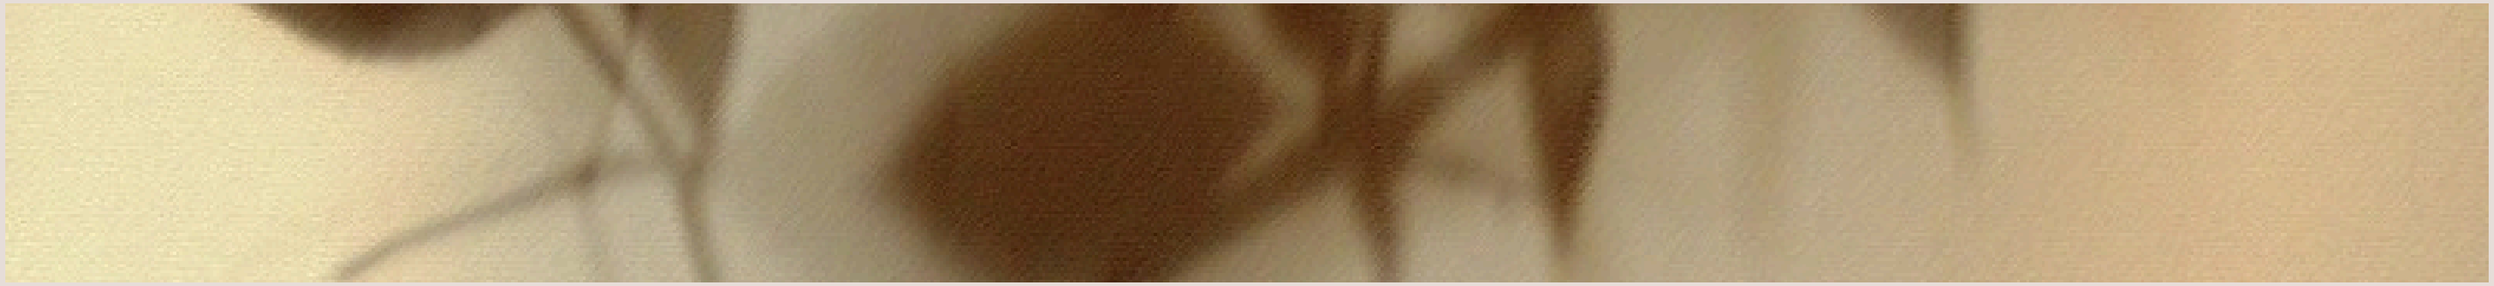

A *revenue* architect

- 7 years in revenue, GTM and data.
- **Global GTM and Campaign Manager at Betty Blocks**. ICP, enrichment, scoring and routing.
- Sales and Channel Operations at efficy, a CRM vendor.
- Data and Insights Lead at HEINEKEN, for 23 markets.

A *founder* first

- Built **Eten Maar**, a stroopwafel brand, from zero to €100K revenue in a year.
- Ran its acquisition, pricing and unit economics.
- Runs **Astra's own outreach engine** every day. The same one this academy teaches.

You learn it from someone who builds it on Monday and teaches it on Tuesday.

Proof From Real Work | Built before

1

Eten Maar

Raka's own stroopwafel brand.
Built from zero with family
Acquisition, pricing and unit economics

€0 to €100K in a year

2

Betty Blocks

A software company.
Outreach automation, from scratch
ICP, enrichment, scoring and routing

Outreach built from zero

3

efficy

A CRM software company.
Flows from first lead to repeat customer
Sales and channel operations

Lead to loyalty, automated

Two Ways In

I teach you

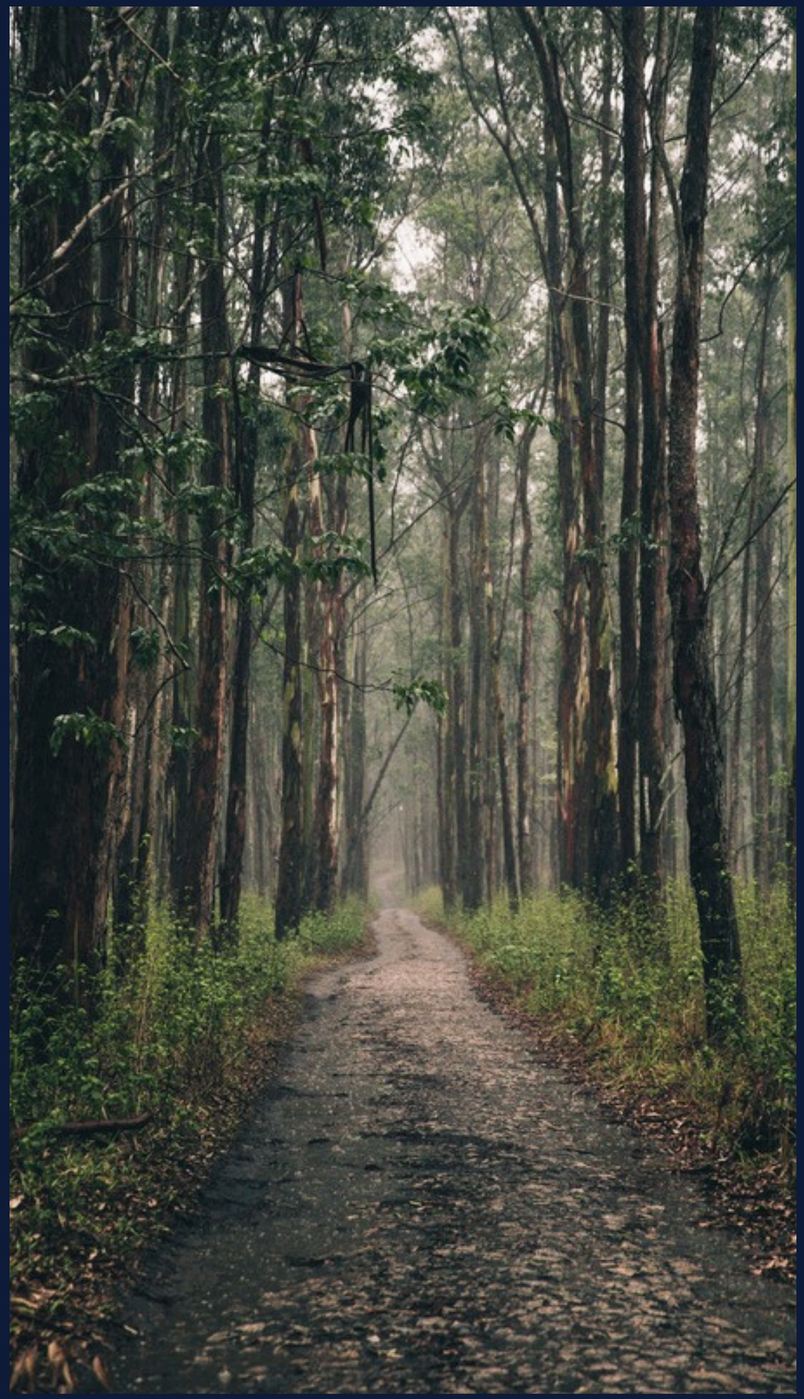

The academy. You keep the skill.

- A free score to find your level
- Three levels for a GTM career
- Courses for sellers and leaders
- Team seminars and group packages
- Self learn, or 1:1 with Raka

I build it for you

Astra builds it, runs it, or leads it.

- A Health Check, then a team seminar
- Campaigns, signals and AI agents
- Lead to loyalty flows, forecasting
- Run and improved every month
- Or a Fractional RevOps Director

I Teach You

Pick your path

Sell better

For AEs, SDRs and founders.
More meetings, less manual work
The Seller track, three levels

From €125 a level

A GTM career

For people building a career.
The Engineer track, three levels
A role companies are hiring for now

From €125 a level

Train your team

For sales leaders and teams.
The GTM Leader course
Seminars and group packages

From €500

Every Course, Step by Step

Made for beginners

1. Quick win

Lesson 1 gets you a real result in 30 minutes. One researched account and a message.

2. Short lessons

5 to 10 minute videos. One idea each, every click shown, every new word explained.

3. Build it

Every module ends in an assignment on your own market, with steps, a rubric and a good and bad example.

4. Prove it

A quiz per module, a hands on test and a final exam. The pass mark is 80%.

5. Get certified

Completed, or Certified when Raka marks your final piece of work.

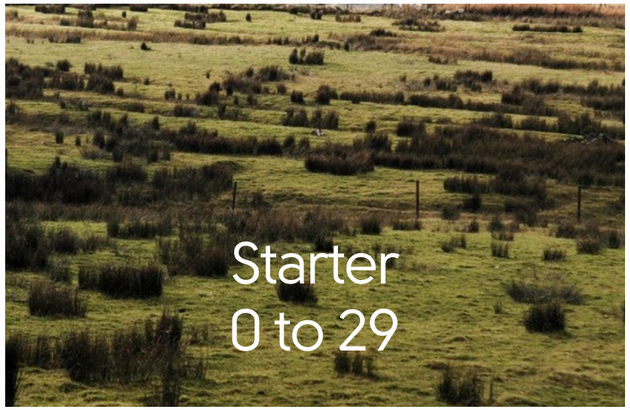

Stuck? Every assignment lists the three mistakes people make most, and how to fix each one.

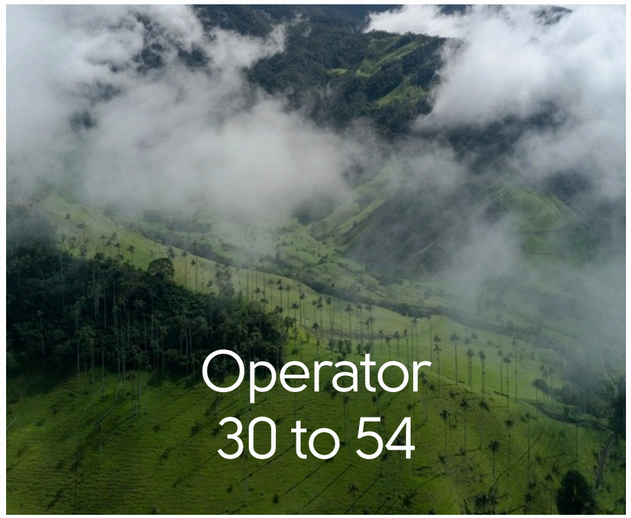

THE SCORE

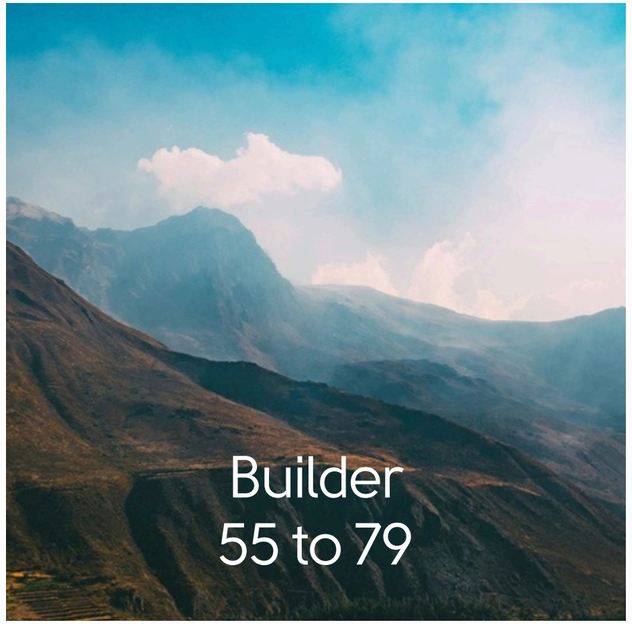

25 questions, 7 minutes, a score out of 100. **Free** and **honest** about where you are.

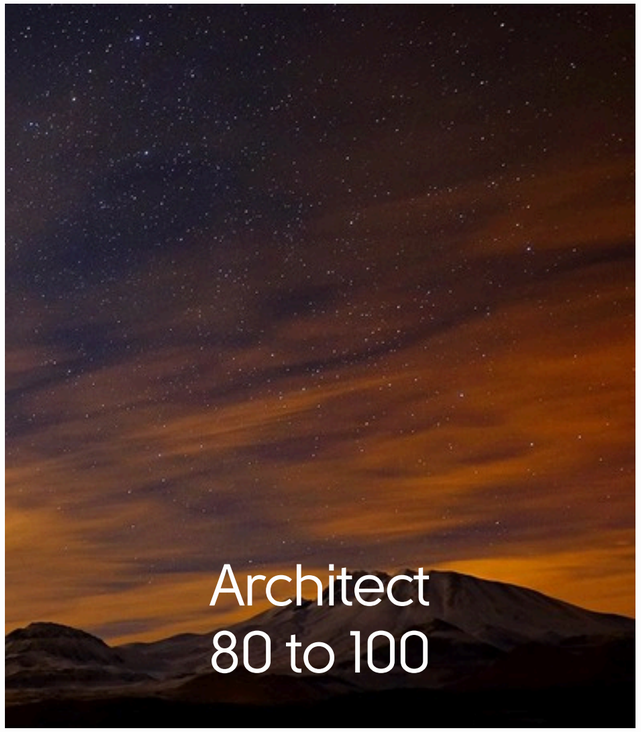

YOUR LEVEL

Your band says **where to start**, and every course takes you one level up.

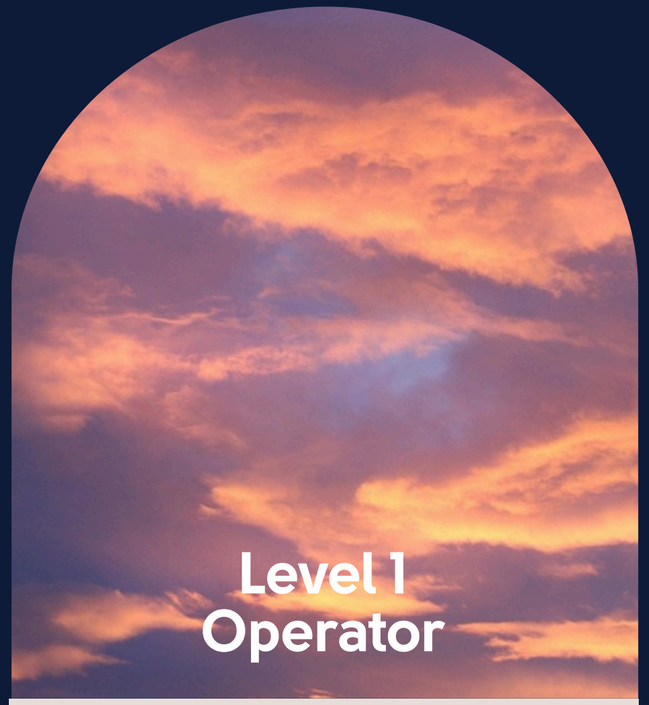

ASTRA AGENCY

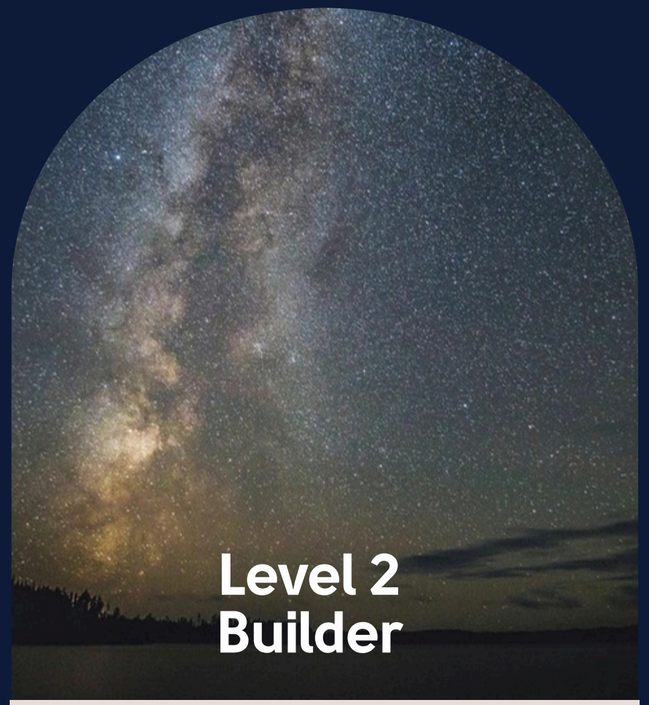

The Engineer Track

Start where your score puts you. Each level is a **course** of its own, with a **certificate**.

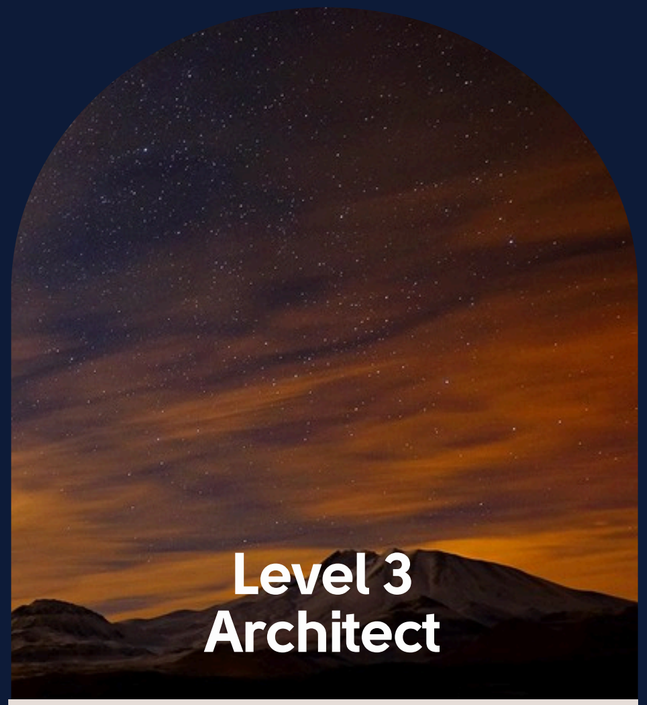

Level 1 Operator

ICP, lists, enrichment, signals and AI research. About 4 weeks.

Level 2 Builder

Safe sending, automations, CRM and dashboards. About 5 weeks.

Level 3 Architect

Revenue architecture, AI agents and signal systems. About 5 weeks.

Level 1 Operator

About 4 weeks

1. Your ICP

- A first result in 30 minutes
- Who to sell to, and who to rule out
- An ICP sheet with tiers

2. Lists

- Where data comes from
- GDPR basics
- A 200 account list, built two ways

3. Enrichment

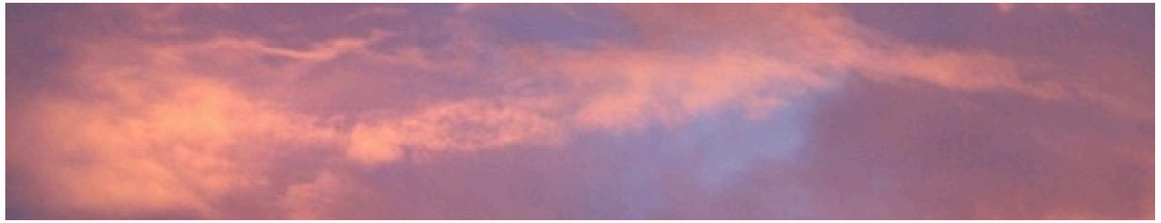

- Fill gaps cheaply, then verify
- Score by fit and timing
- A Clay waterfall and three live signals

4. AI research

- Research with Claude that cites sources
- Every fact checked
- Ten researched accounts

5. The message

One problem, start to finish. A three step sequence and an A/B plan. Then a hands on test and a 20 question exam.

Level 2 Builder

About 5 weeks

1. Sending

- Domains, SPF, DKIM, DMARC
- Warm up and country rules
- A live campaign on a warmed domain

2. Flows

- How tools talk to each other
- APIs and n8n
- A flow that connects three tools

3. CRM

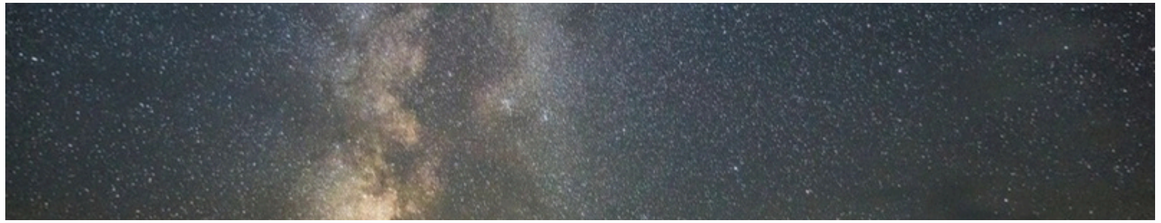

- Objects, fields and stages
- Dedup and routing in HubSpot
- A CRM with routing rules

4. Loyalty

- Inbound and outbound joined up
- Keeping customers coming back
- An inbound and a reactivation flow

5. Measuring

Conversion, reply rates and a forecast. A dashboard and a scorecard. Then your engine runs live for two weeks.

Level 3 Architect

About 5 weeks

1. Design

- The revenue system on one page
- Unit economics and a data model
- A revenue map with three leaks

2. AI agents

- Agents that run on hundreds of accounts
- A human check and a log
- A tested multi step agent

3. Signals

- Signals scored by results
- Routed to the right people
- A forecast tied to signals

4. As a service

- Scope, spec, sprint and demo
- Pricing and getting hired
- A service pack and portfolio

5. Capstone

Design, build and run the whole system, then present it to Raka. Then a 25 question exam.

Want to sell better? There's a course for your role.

Seller Track

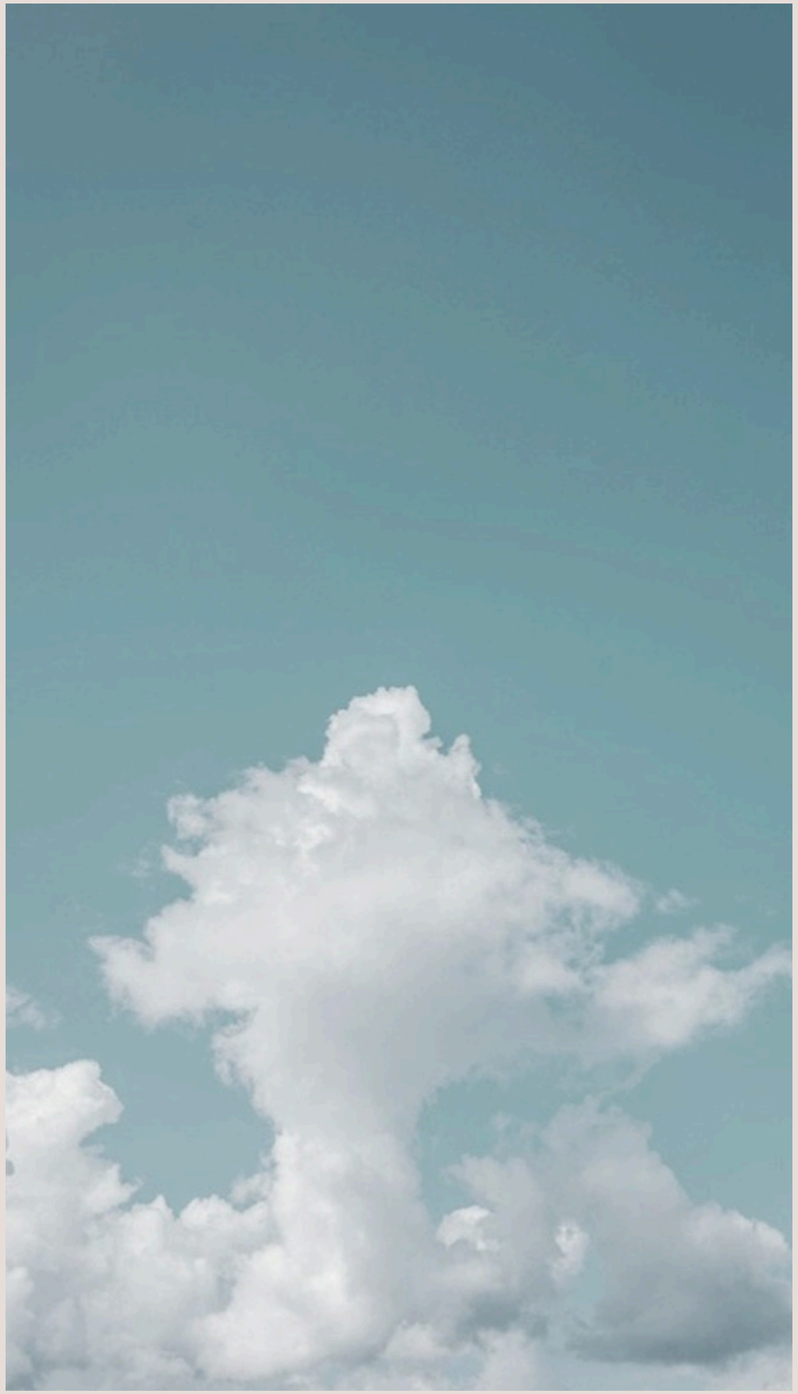

For AEs, SDRs and founders who sell.

- Level 1 Find. Your list, alerts, AI research
- Level 2 Reach. A live sequence and calls
- Level 3 Scale. A scorecard and AI assistant
- More meetings in 2 to 3 hours a week
- €125 a level self learn
- €1,000 a level with Raka

GTM Leader

For sales managers and heads of sales.

- The operating model
- The sales bible
- ICP, routing and CRM hygiene
- Dashboards, forecasting, coaching
- A 90 day rollout plan
- €500 self learn, €2,000 with Raka

For Your Team

Seminar

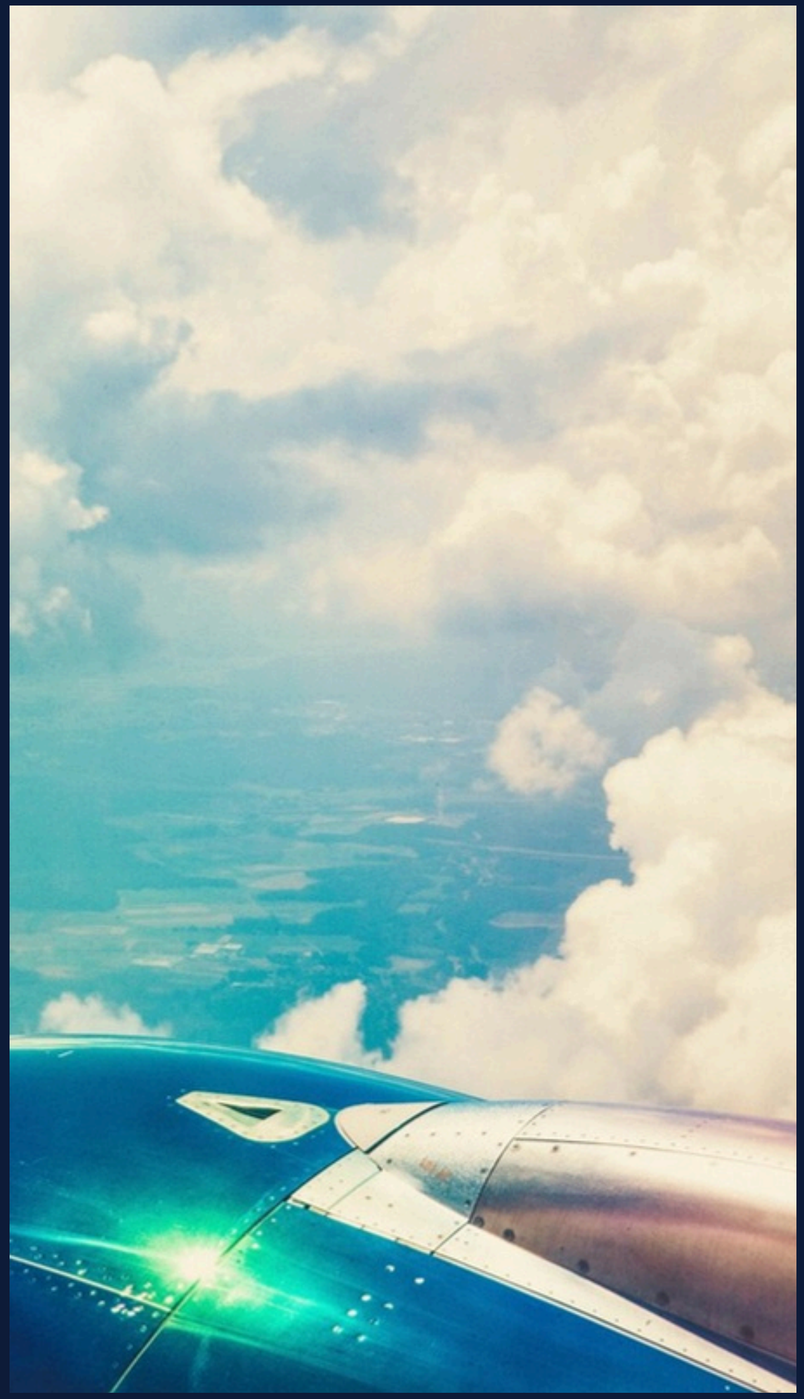

One topic, one afternoon.

- One live session, one topic
- On your own CRM, data and ICP
- 2 to 4 hours, with the whole team
- Your team leaves with a plan
- €125 per person per hour

Group package

A course, taken together.

- Your team takes a full level together
- 4 to 5 weeks, live sessions with Raka
- Every assignment marked
- A certificate for each person
- €600 per person per level, from 4

Two Ways to Learn

Self learn

Your pace, from anywhere.

- Every lesson, template and test
- Mark your work with the rubric
- Lifetime access and updates
- Book a 1:1 hour when you need it
- Upgrade later, the fee is credited

1:1 with Raka

Your own data, built with Raka.

- A live 90 minute session every week
- Raka builds with you on your setup
- Every assignment marked by Raka
- Answers within one working day
- Certified at the end, course included

The Ladder in Prices

Same price on both tracks

1

Level 1 Operator

About 4 weeks. Run an engine someone else built.

€125 self learn
€1,000 with Raka, 6 sessions

2

Level 2 Builder

About 5 weeks. Build the engine end to end, with a live project.

€125 self learn
€1,000 with Raka, 5 sessions

3

Level 3 Architect

About 5 weeks. Design the whole system and lead the build.

€125 self learn
€1,000 with Raka, 5 sessions

All

All three levels

About 14 weeks. The full ladder, Operator to Architect.

€299 self learn
€2,500 with Raka

I Build It For You

Start with a Health Check

Health Check

Where your revenue leaks.
A free call and a first look
Then Strategy, the deep analysis
The first build, agreed

Free, Strategy €750

Engine Build

The engine, built and handed over.
5 campaigns and 2 signals, €650
Automations €150, AI agent €1,000
A full engine, around €4,000

From €650

Run, or Direct

Kept running, or led part time.
Monitoring, updates, a monthly review
Raka as Fractional RevOps Director
Directing at €120 an hour

From €750 a month

What It Costs

Three example builds

A founder starting out

A free Health Check
5 campaigns and 2 signals
Your CRM connected to lemlist

€800

A team of 5 SDRs

A Strategy session
5 campaigns and 2 signals
Two automations
An outbound AI agent

€2,700

Scaling next year

A Strategy session
The full engine, built
Then kept running
Reviewed every month

€4,750, then €750 a month

Everything We Build In full

Campaigns

- Outbound campaigns and sequences
- Signals that say who to call now
- Inbound and outbound joined up

AI agents

- Research agents that cite sources
- Reply handling and routing
- Every agent tested, with a human check

Lead to loyalty

- From first lead to repeat customer
- Onboarding, retention, reactivation
- Referral flows for happy customers

Forecasting

- Dashboards your team trusts
- AI forecasting tied to real signals
- A weekly scorecard

Feedback loops

What customers say feeds the next campaign. Every step is analysed, so the next build is the right one.

How a Build Runs

1. Health Check. Free. A first look at your funnel. →
2. Strategy. The deep analysis, the first build agreed. →
3. Build. The engine, set up on your own tools. ↓
4. Hand over. A seminar, so your team runs it. ←
5. Run. Monitored, updated, reviewed every month. ←
6. Direct. Raka as Fractional RevOps Director.

Which **Door** Is **Yours?**

Learn it if you...

- Want a GTM engineering career
- Want to sell better, with less manual work
- Lead a team and want it to own the system
- Learn best by building on your own data

Have it built if you...

- Need pipeline that keeps scaling
- Have the tools but nobody to connect them
- Want it run, or directed part time

Start Here

1

Take the free score

7 minutes. Your level and your first course.

2

Book a Health Check

Free. We find where your revenue leaks.

3

Not sure? Book a call

A free 20 minutes to pick the right door.

Learn it, or have it built.
