ASTRA AGENCY

PREPARED FOR STEVEN GARRATT, QUALIGRAF · 4 NOVEMBER 2026

Be in their minds a year before the tender.

Three ways Astra can help Qualigraf get known, understood and chosen by councils.

The life of a decision, the story you already tell in demos

IDEA · REPORT · DECISION · PUBLICATION · ARCHIVE

01 WEBSITE DESIGN AND CARE

A website that tells the story of a decision

A new Qualigraf site, UK first, built around the life of a decision. One site with a page set for each market, so the UK, France, the Netherlands and Canada keep their own detail.

- The UK pages already designed, nine in all, for Democratic Services teams
- Built on WordPress with a custom theme, so your team edits it without us
- 90 days of optimisation after launch, then a care plan for updates, security and fixes

A council sees how Qualigraf works before the demo is booked.

FROM **£7,950**

UK site, built once. Care plan from £550 a month. Each further market quoted per market.

02 AI POWERED GO TO MARKET

A quiet workflow that finds councils a year before they buy

It watches public tender and contract notices, lists the councils heading towards a change of supplier, and puts the right Qualigraf story in front of the right person.

- A watchlist of councils ordered by contract timing, UK first, then each market
- One relevant message per person, checked by you before it goes, with a cap on contact so nobody gets chased
- Replies and meetings land with the country manager who owns the sale

Qualigraf is already known when the requirements get written.

FROM **£6,500**

Set up and first run. Live for the UK first, and each market added in turn.

03 BRANDING AND STORYTELLING

One group story that holds in four countries

Your own line, local expertise and global innovation, turned into a story, messages and a look that three audiences recognise as one company. Led by Luna, who does brand and positioning for Astra.

- A story workshop with Luna and your country managers, then the group narrative with a version for each market
- A refreshed visual identity and a short brand guide for the four teams
- The demo story written once, so sales, site and event stands say the same thing

Every country tells the same story in its own voice.

FROM **£3,000**

Brand and story refresh. Fixed scope agreed before we start.

HOW WE'D START

Now. A 20 minute call to pick your starting point.

Within 24 hours. A one page proposal with one recommendation, a fixed price and a date.

Spring 2027. Start with the UK site, then add markets and the workflow as budget opens.

WITH EVERY PROJECT

One Dutch point of contact. Scope and price fixed before we start. A senior build team that works with us as one team. A site or system your people can run themselves.

NEXT STEP

Shall we find twenty minutes next week to choose where to start?

astraagency.nl

Ballpark prices in pounds, excluding VAT, confirmed in your proposal.

Selected work delivered with our development partner Amwisesa. Unilever 1001 Ramadhan Inspiration, 48 brands. GPay app. MWX AI Market.
