

A website that earns a seller's trust, and a calmer way to reach them

PREPARED FOR KYSON CHARLES, ACQUITAS PARTNERS · 9 OCTOBER 2026

YOUR GOALS

1. Sign your first mandate, then build towards two or three deals over the next twelve months.
2. Have sellers understand your fee before the first call, rather than halfway through it. Nothing about it should come as a surprise.
3. Reach more owners each week, without a hire.

WHAT'S HOLDING THE FIRST DEALS BACK

We reviewed every page of acqpartners.com, your Companies House record and recent activity in your sectors. CapEQ counted 155 sales under £100m in testing, inspection, certification and compliance across the UK and Europe in the twelve months to August 2026. Your site describes the right kind of firm. What a seller can't yet see is who you are, how a sale runs with you, and how your fee works. That's all fixable.

- Your immediate priority is signing the first mandate, then an office and a first hire.
- Sellers who came close to instructing you stepped back at the fee, mostly because they didn't understand how it works.
- You source owners by hand on LinkedIn. Paid databases aren't easy to justify before the first deal.
- You liked the value calculator, and you want your own profile on the site regardless.

PHASE ONE. WHAT WE'LL DELIVER

Three elements, together £3,500, each serving one of the goals above.

Your new website

£2,500

A refined brand that communicates your mission

We'll refine your brand so the site expresses what Acqitas stands for, which is helping owners achieve better exits. A sharper brand makes your positioning clear, so a seller understands where you stand within seconds.

A clearer path through the site

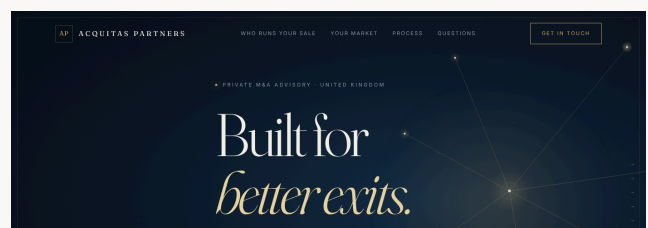

We'll redesign the entire flow, not only the pages. A business owner should understand what happens, what it costs and what to do next within a minute.

What's included

- Pages for Home, About you, How a sale works, Fees, Sectors, the value calculator, Questions, Contact and Privacy
- Your story and photography, so sellers know who they'll deal with and why you're the right person for the sale
- A clear, considered page on how your fee works, so it never comes as a surprise
- **The value calculator.** An owner adjusts a few sliders and sees an indicative value, the tax on the sale, your fee and what they would keep. Their answers arrive in your inbox
- A branding session with Luna to sharpen your brand and positioning
- A straightforward content editor, so you can update text, replace photography and publish news yourself, with no code needed
- Search engine optimisation, so owners can find the site on Google more easily
- Works beautifully on phones, on your own web address, with your email unchanged

How we build it

We collect your story, a photo you're happy with and how you explain your fee. We build the site on a private preview link, you click through it and send us your changes, with up to two rounds of changes included. Then it goes live. We show you how to edit it yourself.

The concept you've already seen. The finished site uses your own photo and words.

The value calculator, already working in the concept. Owners see an indicative value, the tax on the sale, your fee and what they would keep.

Your outreach assistant

£625

A focused setup that gives you a hot list of owners to contact now, and prepares the groundwork for each message. You remain in control of everything you send.

- **One hot list.** Owners matching your target profile, for example an owner or managing director with 14 years in post
 - **One signal.** An alert when an owner shows signs of considering a sale
- **One research helper.** Enter a company and get a brief, with a first message in your voice. You review it, then send
 - **LinkedIn and email sending.** Connection requests and follow ups run to schedule from one place
 - A walkthrough, so you can run it yourself each week

Subscriptions you hold directly, in your name. Iemlist at \$109 a month, Claude at \$20 a month and LinkedIn Premium at [price to confirm] a month, list prices on 7 October 2026.

How we build it

We connect your LinkedIn and email, build your first hot list and draft opening messages. We calibrate the helper and signal to your tone, then run the first cycle together.

Input Example Testing Ltd

ILLUSTRATION

Owner. Founder, in post 22 years, holds the shares

Business. Calibration lab, 35 staff, accredited, steady repeat customers

Why now. Founder's age and length in post suggest an exit within a few years

Hi James, the lab you've built over 22 years is rare. Would a short call help?

An example of the research helper's output. Details are invented.

A strategy session

£375

Two hours on writing the first message, current tactics, signals, and how to get the most from LinkedIn Premium.
