

A website that wins a seller's trust, and an easier way to reach them

PREPARED FOR KYSON CHARLES, ACQUITAS PARTNERS · 9 OCTOBER 2026

WHAT WE LOOKED AT

We read every page of [acqkitaspartners.com](#), your Companies House record and the deal numbers in your sectors. CapEQ counted 155 sales under £100m in testing, inspection, certification and compliance across the UK and Europe in the twelve months to August 2026. Your site describes the right firm. What a seller can't see yet is who you are, how a sale runs with you, and how your fee works.

WHAT YOU TOLD US

- Your focus right now's signing your first mandate, and then an office and a first hire.
- Sellers who got close and stopped, stopped at the fee, mostly because they didn't know how it works.
- You find owners by hand on LinkedIn, and the paid databases aren't easy to justify before the first deal.
- You liked the value calculator, and you want your own profile on the site either way.

YOUR GOALS

1. Sign your first mandate, then build towards two or three deals over the next twelve months.
2. Have sellers understand your fee before the first call, not halfway through it. It shouldn't be a surprise.
3. Reach more owners each week without hiring yet.

PHASE ONE. WHAT WE'LL BUILD

Three things, together €3,500. Each one serves one of the goals above.

Your new website

€2,500

A new look, built to communicate your mission

We'll strengthen your brand so the site says what Acqkitas stands for, which is helping owners achieve better exits. A stronger brand makes your positioning clear to a seller in seconds.

A clearer way through the site

We'll redesign the whole flow, not just the pages. A business owner should know what happens, what it costs and what to do next within a minute of landing. Every page is set up to be found on Google.

What's included

- Pages for Home, About you, How a sale works, Fees, Sectors, Value calculator, Questions, Contact and Privacy
- Your story and photo, so sellers know who they'll deal with and why you're the right person for their sale
- A plain page on how your fee works, so it never comes as a surprise
- **The value calculator.** An owner moves a few sliders and sees a rough value for their business, then the tax on the sale, then your fee, then what they'd keep. Every owner who uses it arrives in your inbox with their answers
- A branding session with Luna to strengthen your brand and positioning
- An easy editor, so you can change text, swap photos and add news yourself, no code needed
- Works on phones, on your own web address, with your email left untouched

How we build it

We collect your story, a photo you're happy with and how you explain your fee. We build the site on a private preview link, you click through it and send us your changes, with up to two rounds of changes included. Then it goes live, and we show you how to edit it yourself.

The concept you've already seen. The finished site uses your own photo and words.

The value calculator, already working in the concept.

Already working in the concept. Owners see a rough value, the tax on the sale, your fee and what they'd keep. Their answers land in your inbox.

Your outreach assistant

€625

A simple setup that gives you a hot list of owners to contact now and does the groundwork for each message. You stay in control of what you send.

- **Hot list.** Owners who match your profile, for example an owner or managing director who has been in post for 14 years in your sectors, ready for you to contact
- **Signals.** Alerts when an owner shows a sign they may be thinking about a sale, so you reach them at the right time
- **Research helper.** Type in a company and get a short brief on the business and its owner, plus a first message in your voice. You check it and send it
- **LinkedIn and email, run from one place.** Connection requests and follow ups go out on schedule, so nothing depends on your memory
- A walkthrough, so you can run it yourself each week

How we build it

Tool costs, paid by you directly. Iemlist at \$109 a month and Claude at \$20 a month, list prices on 7 October 2026.

We connect your LinkedIn and email, build your first hot list and write first messages in your sectors, set up the helper and signals to your tone, then run it once together.

Input Example Testing Ltd

Owner. Founder, in post 22 years, holds the shares

Business. Calibration lab, 35 staff, accredited, steady repeat customers

Why now. Founder's age and length in post suggest an exit within a few years

Hi James, I noticed you've built something unusual here...
